

**IGNITE is coming to KW Atlanta Northeast and 250+ KW Market Centers across the country on January 9, 2012!**

## **What is IGNITE?**

Ignite has a single objective: to propel agents into immediate productivity.

To achieve this goal, the course contains a wealth of fundamental and foundational real estate content, enhanced by productivity-based exercises, an online tracking system ([MyTracker](#)), practical job aids, and powerful scripts.

**[Click here to watch a short video clip about IGNITE!](#)**

### **Read what Chris Alston, Team Leader, Cupertino CA has to say about IGNITE:**

Ignite... So many things come to mind when I think of the word.

Combustion, fire, flames, spark, imagination, light bulb, innovation. **I don't see a camp fire, I see a bonfire!!** bet the fire you see is different from the one I am imagining, and yet they are both hot! I'm not looking at the actual **size of the light bulb, but the fact that there is light in the dark** that existed before that ray brightened the room.

When I think of the word **Ignite** and how it plays into a real estate agents' career, I see something so similar! Success, listings, contracts, money, leads, growth, achievement are all words that come to mind. And again, **I am not seeing a new agent just starting out or launching their career, I am seeing agents, and their rise to the level of success the desire.** And here's the coolest part. The level could be 20-40 deals, or 100-200, or maybe it's taking the leap to achieve a first transaction. I bet the level of success I am thinking is different from yours, yet they both are successes.

The class is structured to **steer you on the right path in your career and your life.** You create new habits that lead to success and we hand you a road map that is easy to follow.

The other part I love: we're all learning and working through our challenges together, as we work toward mastery.

**This new four week intensive course will help you to set ideas in action, help with affirmations, putting models in place, practice in class, learn through technology and a new way of tracking your successes against others in your class and from across the country.**

## **Make a Commitment to Learning and Action!**
