

# Texas Education Agency's Private and Public School Brochure

The Texas Education Agency is developing a new accountability system based on the STAAR (State of Texas Assessments of Academic Readiness) tests as well as other indicators.

**No state accountability ratings will be assigned in 2012.**

# 2013 Accountability System

## Frequently Asked Questions

Updated February 23, 2012

### **Q: Will schools and districts receive a state accountability rating in 2012?**

A: No. Under the state accountability system no ratings will be assigned for 2012. However, under federal (AYP) accountability, schools and districts will be assigned a status of Meets AYP, Missed AYP or Not Evaluated. For more information on federal accountability, please visit the AYP Home Page.

### **Q: Do the 2011 ratings "roll over" for 2012?**

A: No. There are no ratings under state accountability for 2012, and the ratings for 2011 do not apply to 2012. See the PEG FAQ for information on how the lack of state ratings in 2012 will affect schools listed under the Public Education Grant (PEG).

### **Q: Will performance on the STAAR tests from 2012 be used in the 2013 accountability system?**

A: It is possible that the 2012 STAAR performance will be used for purposes of calculating improvement from 2012 to 2013 in determining ratings for 2013.

### **Q: When will schools receive their next ratings?**

A: Schools and districts will be rated under the new accountability system in 2013, and will receive those ratings on August 8, 2013.

### **Q: What will be the rating labels in 2013? Will we still use Exemplary, Acceptable and so forth?**

A: At this time no decisions have been made regarding the rating labels for 2013 and beyond. This will be among the many issues to be discussed by the Accountability Technical Advisory Committee (ATAC) and the Accountability Policy Advisory Committee (APAC) in upcoming meetings. Recommendations of these committees will be considered by the Commissioner of Education.

### **Q: What will be the base indicators for the new system?**

A: Schools and districts will be rated on performance on the STAAR tests, completion or graduation rates, and dropout rates. Other indicators may also be used.

## 2013 DEVELOPMENT

### **Q: When will we know the details of how schools and districts will be rated?**

A: During 2012 TEA staff will meet with the Accountability Technical Advisory Committee (ATAC) and the Accountability Policy Advisory Committee (APAC). These committees will consider complex technical issues related to accountability over the next year and a half and make

recommendations to the Commissioner of Education.

### **Q: Who is on these committees?**

A: Lists of members are available for the ATAC and APAC.

### **Q: When will the Commissioner make his final decisions?**

A: The Commissioner will make the final decisions on the 2013 Accountability System in the spring of 2013. We anticipate having the 2013 Accountability Manual available by May of 2013.

### **Q: Will any information be available before then?**

A: Yes. As the committees meet and begin to make recommendations, that information will be made available on our 2013 Accountability Rating System Development site.

### **Q: Will I have the opportunity to provide feedback?**

A: Yes. As recommendations are available, the public will have the opportunity to comment.

## STAAR EOC

### **Q: Do middle school students enrolled in a high school mathematics course such as Algebra I need to take both STAAR mathematics and EOC Algebra I tests?**

A: Local district policies determine whether students in grades 3-8 who are also enrolled in a high school course are required to take both the grade-level STAAR and STAAR EOC tests. Detailed information on the assessment requirements for these students is available at the STAAR FAQ site, which is maintained by the Student Assessment Division.

### **Q: How are accountability ratings for middle schools affected if they have 6th, 7th, or 8th graders enrolled in a high school course that must take STAAR end-of-course (EOC) assessments to meet their graduation requirements?**

A: For 2012 AYP results, TEA has received approval from the USDE to use either the STAAR grade-level test at the TAKS equivalency standard or certain STAAR end-of-course tests at the TAKS equivalency standard for the 2011-12 AYP calculations. For more information on 2012 AYP, see the AYP FAQ.

For 2013 state and federal accountability results, no decisions have been made regarding how specific test results will be used for middle school evaluations. This is one of numerous topics that will be addressed during the design of the new state accountability system. Please see the 2013 Accountability site for updates.

# What Is STAAR?

## Frequently Asked Questions

Updated February 23, 2012

**The State of Texas Assessments of Academic Readiness, or STAAR, will replace the Texas Assessment of Knowledge and Skills (TAKS) program beginning in spring 2012. The STAAR program at grades 3–8 will assess the same grades and subjects as are assessed on TAKS. For high school, general subject-area TAKS tests will be replaced with twelve STAAR end-of-course (EOC) assessments.**

### **Q. Why is there a new assessment program for Texas students?**

A. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, is developing a new assessment system in response to requirements set forth by the 80th and 81st Texas legislatures. This new system will focus on increasing postsecondary readiness of graduating high school students and helping to ensure that Texas students are competitive with other students both nationally and internationally.

### **Q. In what grades, subjects, and courses will students be assessed under the new STAAR program?**

A. At grades 3–8, students will be tested in mathematics and reading. Students will also be tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8. STAAR EOC assessments will be available for Algebra I, geometry, Algebra II, biology, chemistry, physics, English I, English II, English III, world geography, world history, and U.S. history.

### **Q. How will student performance be described on STAAR?**

A. There will be two cut scores, which will identify three performance categories. For the general STAAR assessments, STAAR Modified, and STAAR L, the labels for the performance categories are...

Level III: Advanced Academic Performance  
Level II: Satisfactory Academic Performance  
Level I: Unsatisfactory Academic Performance

For the STAAR Alternate assessments, the performance labels are

Level III: Accomplished Academic Performance  
Level II: Satisfactory Academic Performance  
Level I: Unsatisfactory Academic Performance

### **Q. What is the timeline for establishing student performance standards for the STAAR program?**

A. The timeline for standard-setting activities will differ for STAAR 3–8 and STAAR EOC because of the timing of available assessment data and different legislative requirements. For STAAR EOC, operational assessment data are available from the spring 2011 administrations. Therefore, performance standards will be set in February 2012, prior to the spring administrations. However, operational assessment data for STAAR 3–8 will not be available until after the

spring 2012 administrations; for this reason performance standards will be set in October 2012.

Legislation requires a system of performance standards that are linked from grade to grade starting with postsecondary-readiness performance standards down through grade 3. Therefore, STAAR EOC performance standards must be established before standards for STAAR 3–8 can be set. Additionally, districts must be provided with test scores on STAAR EOC assessments so that they can be used as 15% of the students' final course grades for the 2011–2012 school year.

### **Q. Which students will be required to take the STAAR assessments?**

A. Students first enrolled in grade 9 or below in the 2011–2012 school year will be required to take the STAAR EOC assessments for courses in which they're enrolled as part of their graduation requirements and will no longer take TAKS. Students enrolled in grade 10 or above in the 2011–2012 school year or who are repeating grade 9 in the 2011–2012 school year will graduate under TAKS requirements and do not have the option of taking STAAR assessments. These students will only take STAAR EOC assessments if their campus has been assigned to participate in the mandatory testing activities.

### **Q. What are the STAAR graduation requirements for students who complete a high school course prior to spring 2012, the first high-stakes administration of STAAR EOC assessments?**

A. A student who has STAAR as his or her graduation requirement and who has completed a high school course prior to spring 2012 (e.g., a grade 8 student who completed Algebra I during the 2010–2011 school year or a freshman who will complete English I in the first semester of the 2011–2012 school year) is not required to take that specific STAAR EOC assessment to fulfill his or her graduation requirement. As a result, the student's cumulative score will be based on fewer assessments. However, the student could choose to take the assessment beginning in spring 2012 and has the option of using the score in his or her cumulative score. Scores on EOC assessments taken prior to spring 2012 will not count towards a student's cumulative score.

### **Q. Where can I go for more information about the STAAR program?**

A. For more information about the STAAR program, visit the TEA Student Assessment website at <http://www.tea.state.tx.us/student.assessment/staar>

# School District Boundary Locator

*The Texas Education Agency collects maps and legal descriptions of school district boundaries under Section 13.010 of the Texas Education Code.*

*Several years ago, the TEA worked with the Texas Legislative Council to digitize school district boundaries. The agencies used the information provided by school districts in conjunction with county-level Department of Transportation (TxDOT) maps to transfer the boundaries from paper to computer.*

*Geographic data for schools was created by the Information Technology Division to enhance TEA mapping applications and for general information purposes. The source of the data is the Texas Education Directory maintained by TEA.*

# State Accountability

## ABOUT THE ACCOUNTABILITY SYSTEM

The state accountability system assigns ratings to every campus and district in the Texas public education system each year. In most cases, the system assigns one of four rating labels—ranging from lowest to highest—Academically Unacceptable, Academically Acceptable, Recognized, and Exemplary. To determine a rating label, the system evaluates indicators of performance, including assessment results on the state standardized assessment instruments as well as longitudinal completion rates and annual dropout rates. Generally, campuses and districts earn ratings by having performance that meets absolute standards or by demonstrating sufficient improvement toward the standard. In addition to evaluating performance for all students, the performance of individual groups of students is held to the rating criteria. The student groups are defined to be the major ethnic and racial groups as well as students designated as economically disadvantaged. All of the evaluated groups must meet the criteria for a given rating category in order to earn that label.

There are two sets of procedures within the state accountability system: one that evaluates standard campuses and districts and another that evaluates alternative education campuses (AECs) and charter operators that primarily serve students identified as at risk of dropping out of school. The indicators and criteria differ between the alternative education accountability (AEA) and standard procedures but the overall designs are similar.

	<b>Academically Acceptable</b>	<b>Recognized</b>	<b>Exemplary</b>
<b>Base Indicators</b>			
<b>TAKS (2010-11)</b> (including TAKS (Acc, -Alt, and -M) All Students <i>and each student group meeting minimum size:</i> <ul style="list-style-type: none"> <li>• African American</li> <li>• Hispanic</li> <li>• White</li> <li>• Econ.
