

COMING SOON:

# Schedule BLOCKER

CSS is in the process of introducing a new tool to Showings.com. The Schedule Blocker allows agents to create a customized rule to “block” showing appointments from being made during a span of time on a certain day or over multiple days. When buyers' agents try to schedule appointments (whether on the phone or on the CSS website) they will not be able to schedule showings during the times you have blocked.

This automated system simplifies the scheduling process, reduces possible errors and gives you more control over your listings.

Schedule Blocker is already in many markets, such as Charlotte, NC; and Dallas and Fort Worth, TX. Be on the lookout for an email notice when Schedule Blocker arrives in your city!

Manage your restriction

---

Create blocked rule

How long is this rule valid ?

Start:  End:   Non Ending

On what days of the week will this rule apply ?

All Days OR  Sunday  Monday  Tuesday  Wednesday  Thursday  Friday  Saturday
