

Ideas to Freshen Your home for Spring!

New pillows or rearranging accessories can give the boost you need. De-cluttering can free your mind and let the true beauty of your rooms come through.

Tips

- ❖ Colorful boxes for all of the kids' artwork and school papers.
- ❖ A beautiful tray to catch the mail when you come in the door.
- ❖ Put away one of your collections to help the others shine. You can always rotate them.

The bottom line is to decide if it's going to take a few tweaks or some big changes to your environment so that it gives you the feeling you need when you walk into your home. You update your wardrobe every season why not update your home as well.
