HSA Home Warranty

Buyer & Seller Benefits

You may be wondering,
What's all this talk about home warranties?
What is a home warranty, and why do my clients need one?
What should I tell them about home warranties?

I'm glad you asked!

Home warranty protection is an important part of every real estate transaction. It saves you time and profits and reduces your risk for post-sale litigation. Your clients benefit too.

Benefits for the seller

- An HSA Home Warranty protects you while your home is listed for up to one year by covering system and appliance failures that occur during the listing period.
- An HSA Home Warranty can help sell your home faster while justifying a higher asking price.
- If an unexpected problem occurs after the sale, the buyer will turn to HSA rather than you for the resolution.

Benefits for the buyer

- An HSA Home Warranty provides the peace of mind that comes with knowing the systems and appliances in your new home are covered.
- An HSA Home Warranty provides the convenience of one source for most repair needs.
- An HSA Home Warranty is renewable annually so you'll always be prepared for the unexpected.

Protect yourself and set yourself apart by including an HSA Home Warranty with every transaction.
