Monte Hewett Homes, LLC - Builder

Monte Hewett Homes, LLC is a company that insists on one of the highest levels of building quality and customer service in the industry. Their designs are distinctive inside and out. Updated traditional styles are finished with elements that add architectural interest outside and convenience and style inside.

During the past six years, Monte Hewett Homes (MHH) has constructed over 800 homes in 24 Atlanta neighborhoods. The company has grown steadily averaging 165 homes built each year. Since 2002, each one of these homes has met or exceeded EarthCraft House™ standards, a voluntary, “green” program that promotes the building of environmentally friendly homes. By following EarthCraft’s guidelines on the installation of energy-saving equipment, waste management and more, Monte Hewett is able to construct solid, quality residences that work to protect natural resources. What’s more, because they are built to be durable, high-performance and resource efficient, EarthCraft homes can save homeowners up to 30+% in energy costs! The commitment to build all homes to EarthCraft standards demonstrates Monte Hewett Homes’ sense of social responsibility and a respect for homebuyers’ current and future costs. Because of his dedication to the program, Monte Hewett Homes was named the EarthCraft Builder of the Year for 2005.

Monte Hewett Homes, LLC has made a commitment to meeting customer needs, uniquely and personally, for life.
