P.S. How awesome would it be to have a BBQ and celebrate holidays in a new house??

Test your knowledge...

Tip of the month . . .

If you are planning to build a new home, you should take full advantage of the opportunity to design a custom-built home that takes into account your needs and includes all the amenities you want in your home. If you want a kitchen for the "gourmet cook" in you--you can have it! If you want the master suite at the opposite end of the house from the kids, it's no problem. This may be the biggest project of your lifetime, so be certain to select a team of professionals to work with you. Your home team should consist of a real estate salesperson, an architect, a builder, and a lender. Your "Dream Team" will work with you to assure that all the legal requirements are met and that there are no "surprises" in your future.
