

## Facts About Expired Listings

Nearly 15% to 25% of all listings **do not sell**.

The market **rejects** them.

In other words, the market did not accept the Marketing Effort, the Price, the Condition, the Location, or a combination of these areas—perhaps all four of them!

The good thing is that you control two of these areas: Price and Condition. We control one: Marketing Efforts.

### Marketing Effort

For sale Sign	Home Tours	Multiple photos in MLS
Websites	Virtual Tours	Color Brochures
Feedback	Direct Mail	Social Media
Market Condition Reports	Broadcast Email	and much more

### Condition

A hundred dollar bill is a great metaphor: they all look good, but people will always choose the nice, clean, crisp one over a dirty wrinkled one. How does your house look to others? This is the crucial important difference between Showing condition and Living condition.

### Price

Being overpriced is usually the reason a home did not sell, but condition will help determine what the market is willing to pay. Remember that **YOU** control price and condition. The wrong price attracts the wrong buyers. It creates a bad reputation for the house in the market place and makes properly priced homes look even better. Would anyone intentionally put their home on the market to help sell the competition?

### Location

Nobody can do a thing about their location except to accent the positives and minimize the negatives.

Who you hire to list your home makes a very significant difference!

To get that difference, call today: 815-703-5166
