## August 2009

Home prices continue to show signs of strengthening. From March 2009 through August 2009 the median sales price has grown from \$154,125 to \$175,000. During the same period last year prices were flat.

Prices are stabilizing due to strong buyer demand—especially in the lower price ranges—buoyed by low mortgage rates and the federal tax credit for first-time home buyers. For the 14th consecutive month, there were more pending sales than there were the prior year. August saw 4,897 signed purchase agreements, up 11.0 percent from August 2008.

With the tax credit expiring in November, closed sales should stay robust for at least the next two months. Time will tell what the market looks like after that, but there will be less inventory.

# Percent of Original List Price Received at Sale

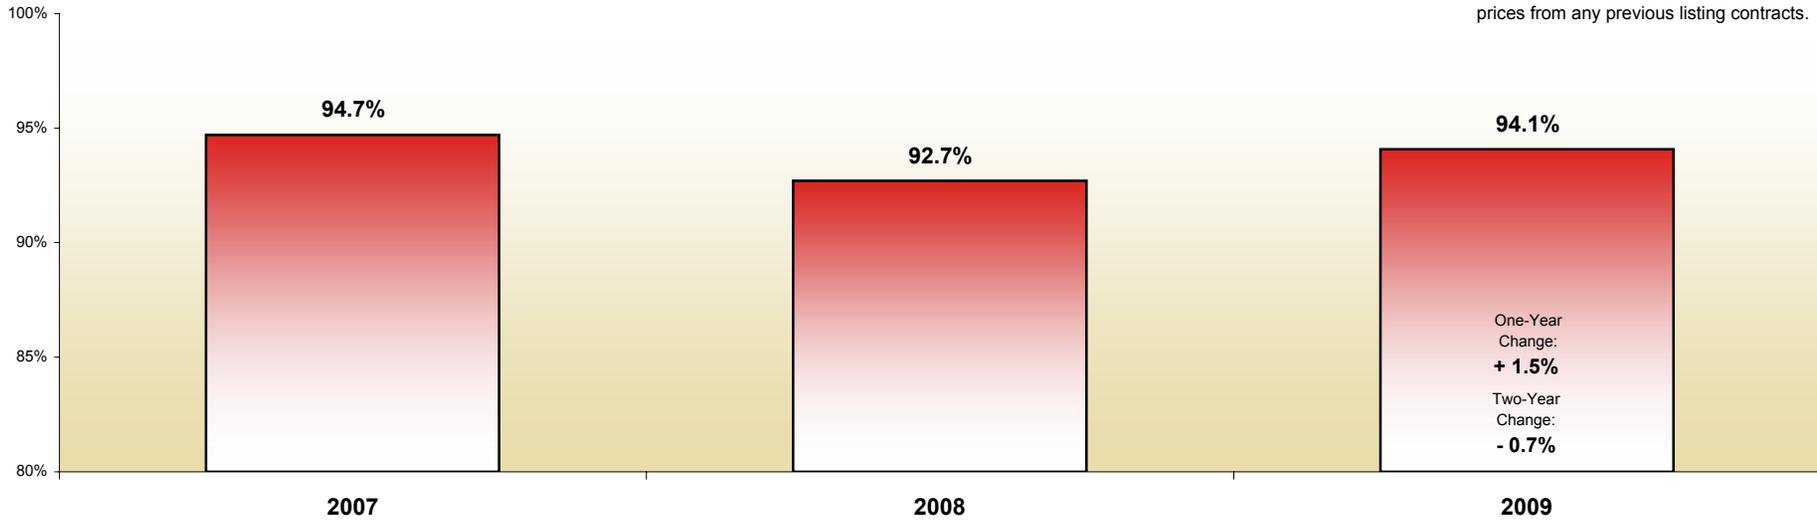

A Monthly Indicator from the Minneapolis Area Association of REALTORS®

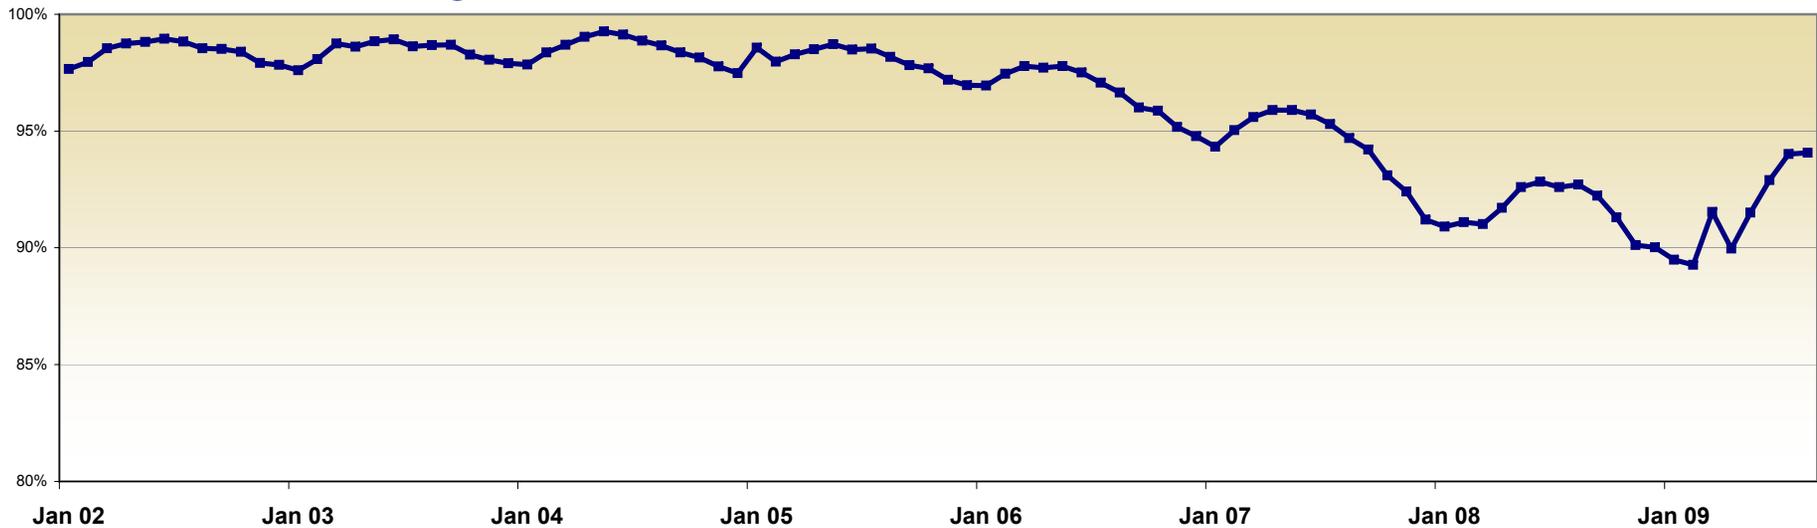

MINNEAPOLIS AREA Association  
of REALTORS®

## August

The Percent of Original List Price Received at Sale is calculated by comparing the final sales prices of closed sales to their original list prices. This does not account for list prices from any previous listing contracts.

## Historical Percent of Original List Price Received at Sale

# Mortgage Rates

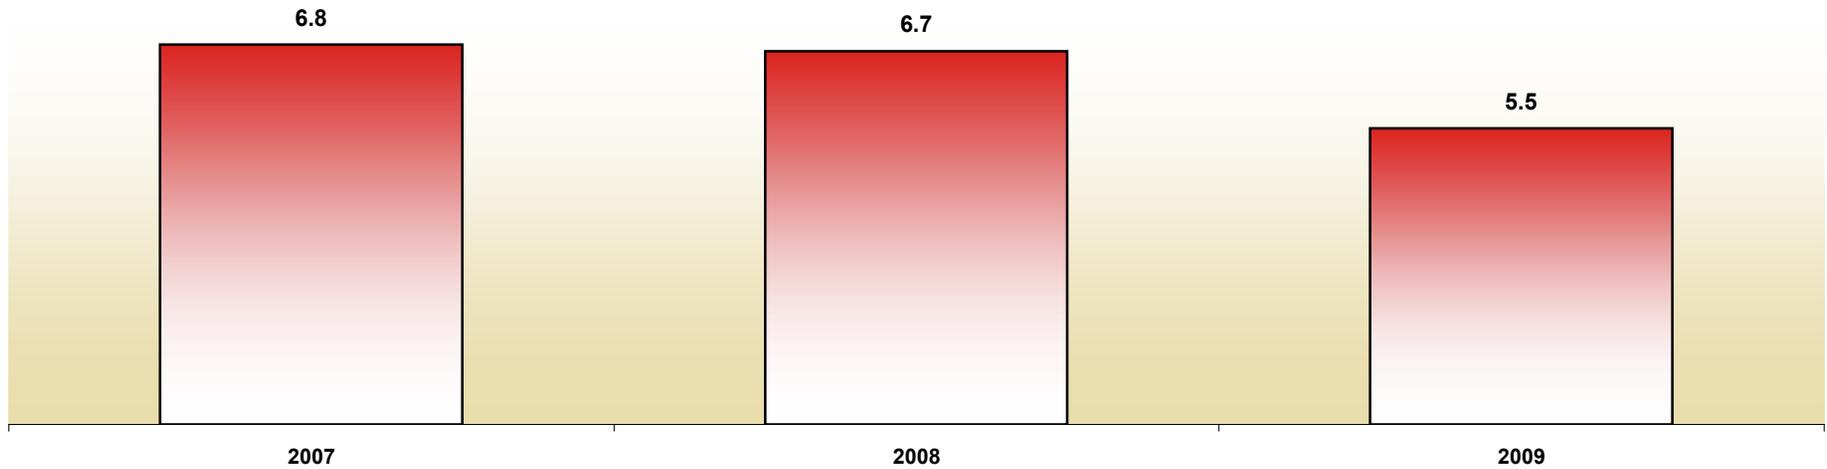

A Monthly Indicator from the Minneapolis Area Association of REALTORS®

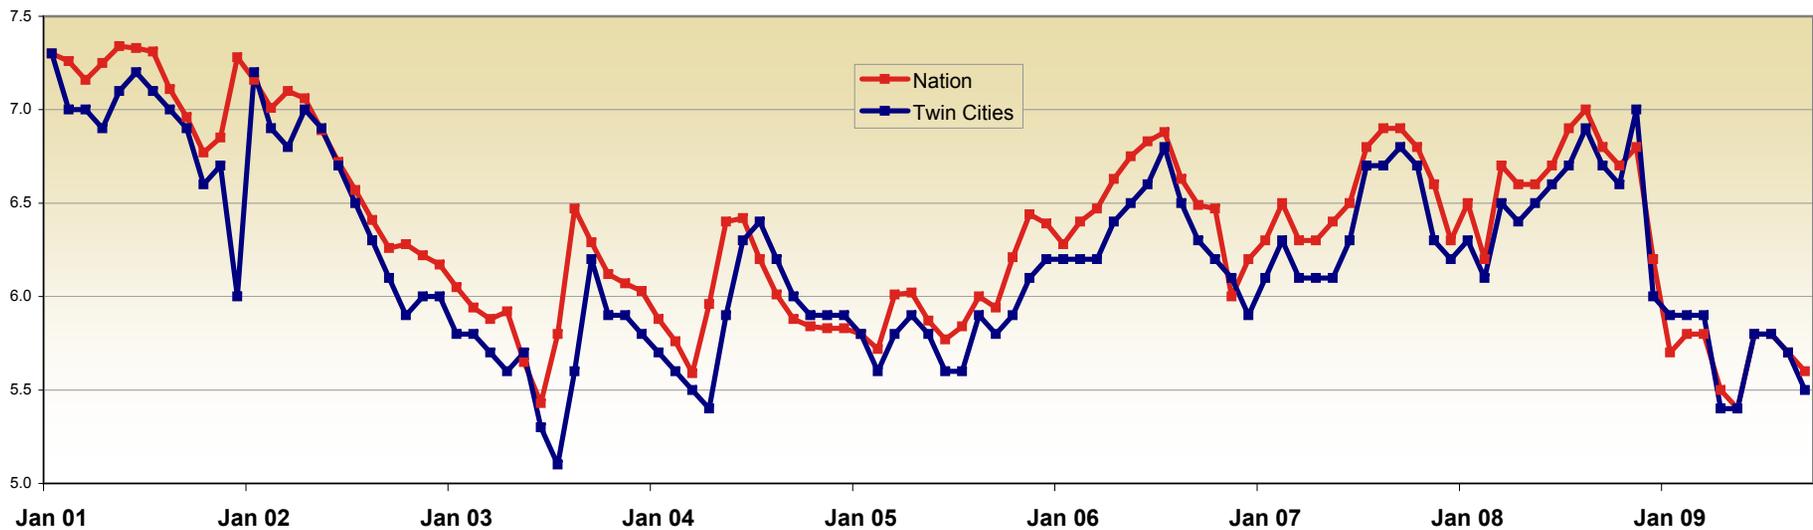

MINNEAPOLIS AREA Association  
of REALTORS®

September

Mortgage rate information is gathered from HSH Associates Financial Publishers, Inc (www.hsh.com). Data represents 30-year fixed-rate mortgages in the Twin Cities region.

## Historical Interest Rates

# Supply-Demand Ratio

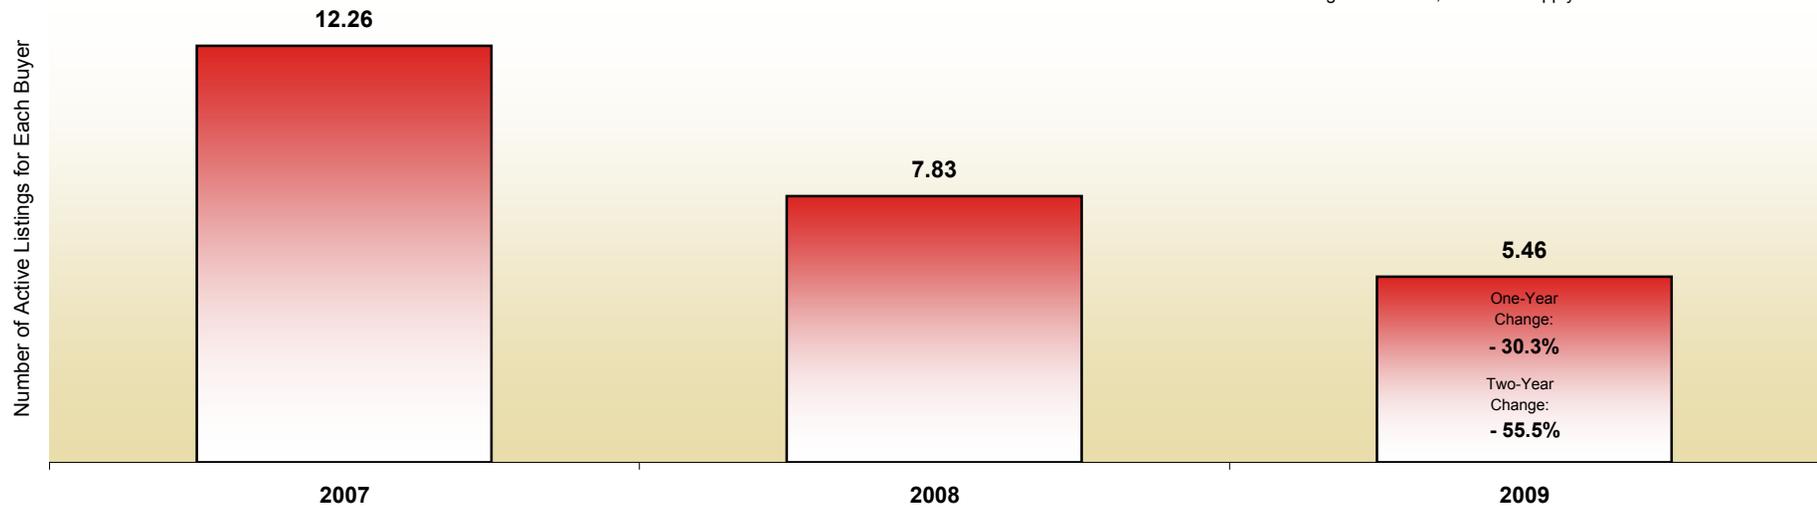

A Monthly Indicator from the **Minneapolis Area Association of REALTORS®**

MINNEAPOLIS AREA Association  
of REALTORS®

## September

The Supply-Demand Ratio (SDR) is calculated by comparing the number of homes for sale at the beginning of each month with the number of total pending sales for the month. The higher the SDR, the more supply there is relative to demand.

## Historical Supply-Demand Ratio

# Housing Affordability Index

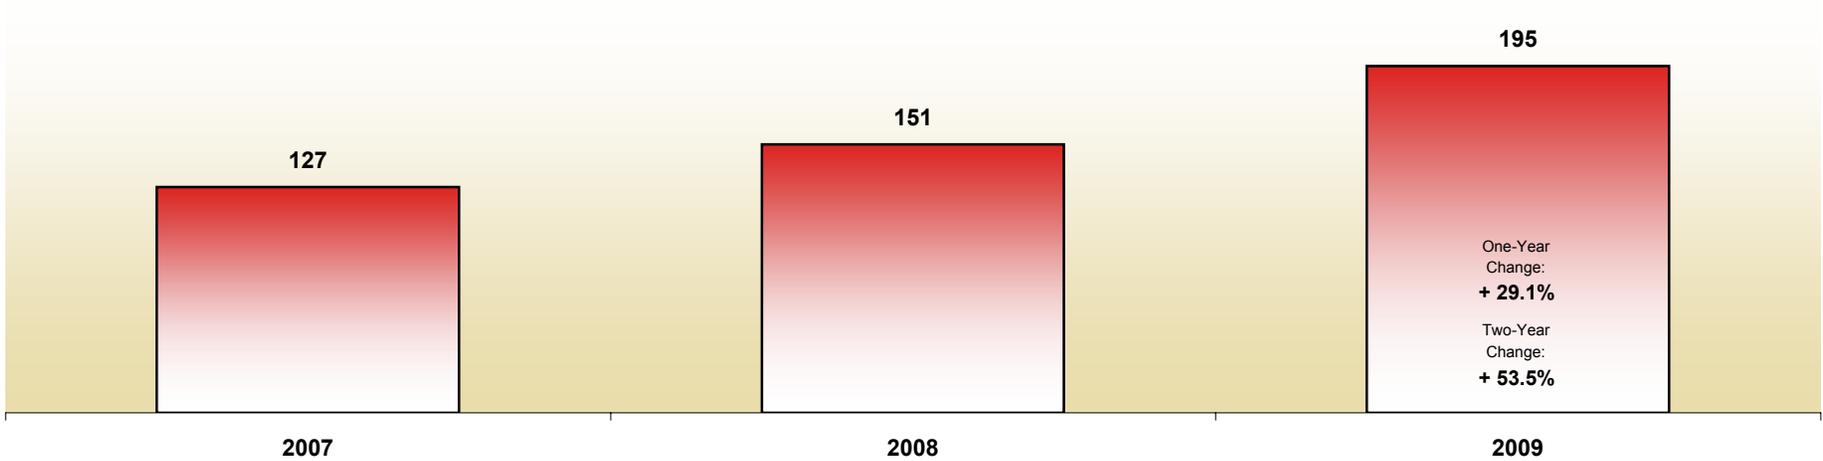

A Monthly Indicator from the **Minneapolis Area Association of REALTORS®**

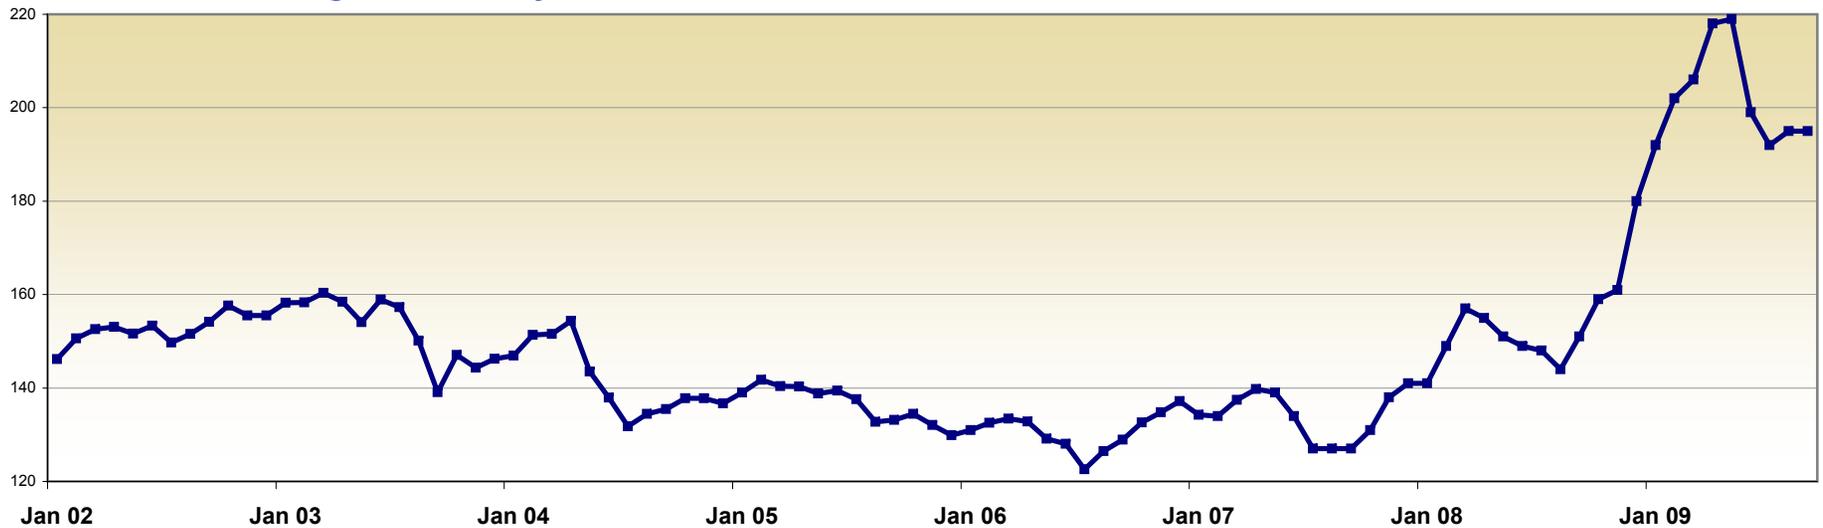

MINNEAPOLIS AREA Association  
of REALTORS®

## September

Note: The HAI formula measures housing affordability for the Minneapolis/St. Paul market. An HAI of 195 means the median family income is 195% of the necessary income to qualify for the median priced home using a 20% down payment, 30-year fixed mortgage.

## Historical Housing Affordability Index

# Months Supply of Inventory

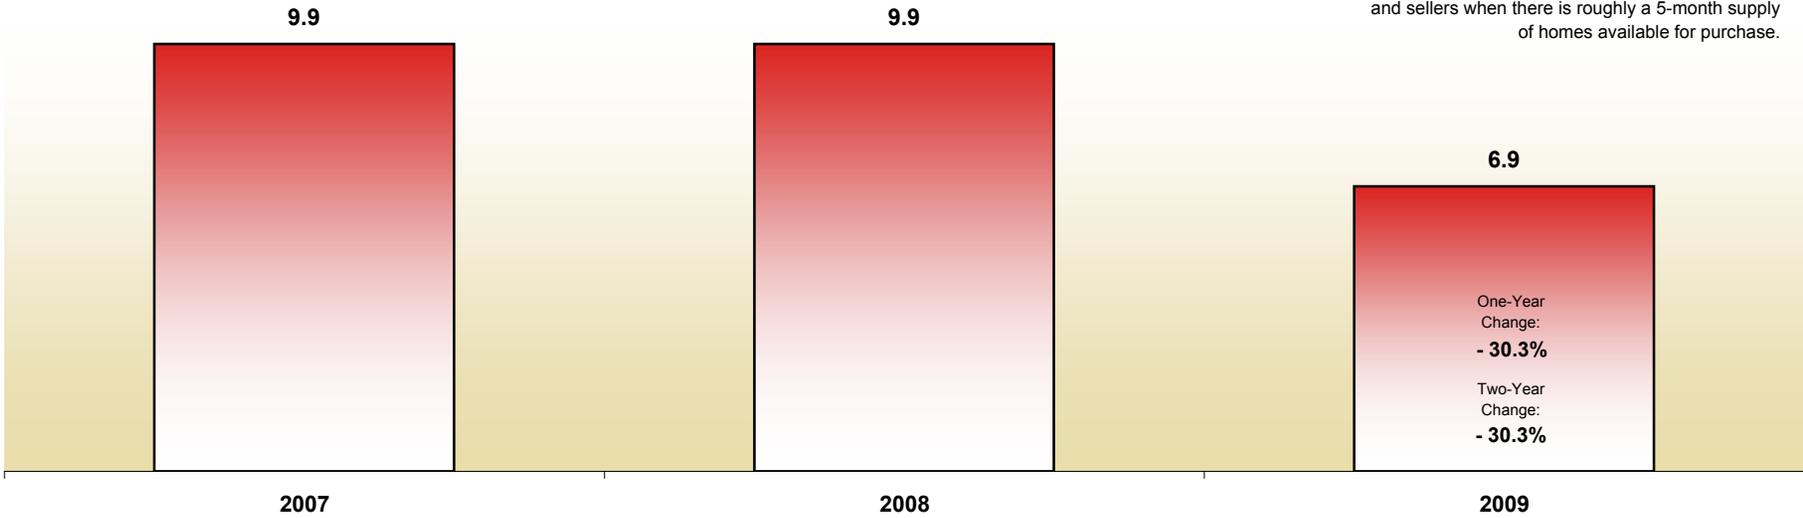

A Monthly Indicator from the Minneapolis Area Association of REALTORS®

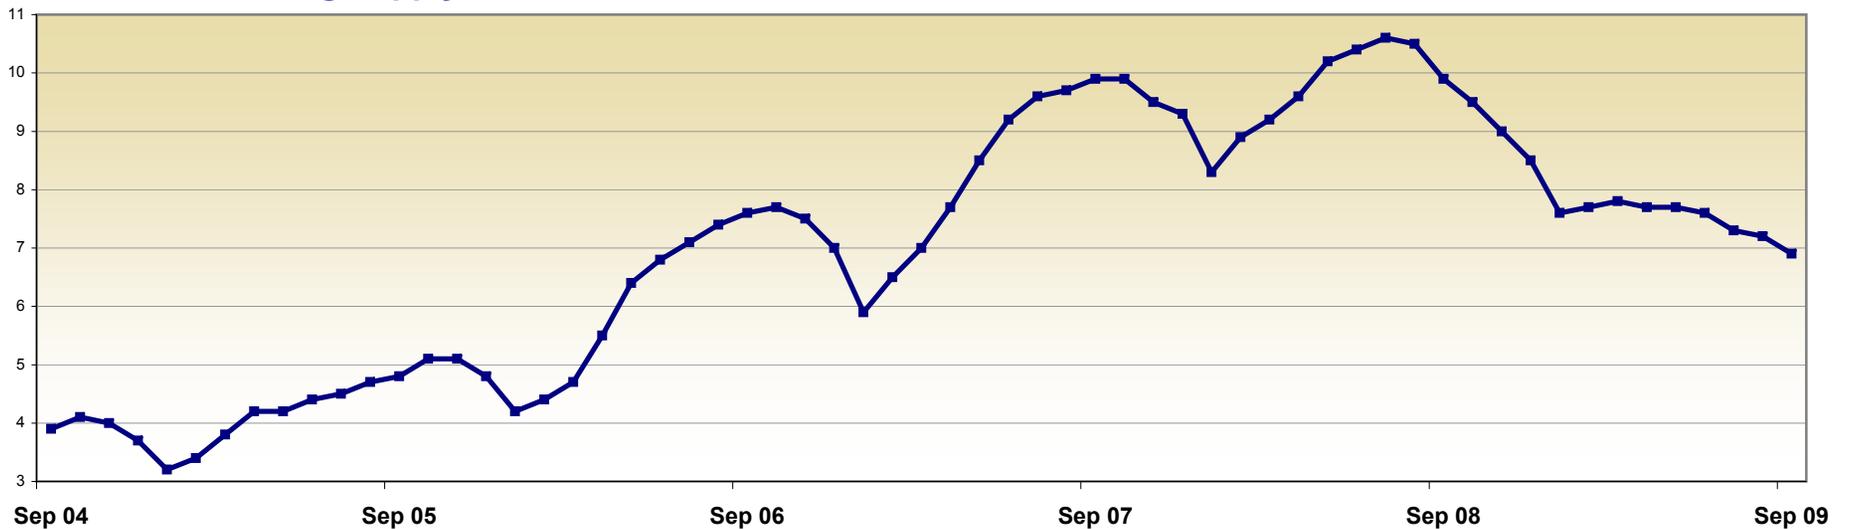

MINNEAPOLIS AREA Association  
of REALTORS®

## September

The market is considered balanced between buyers and sellers when there is roughly a 5-month supply of homes available for purchase.
