

What My Clients Say

We called Paul Chiolo from a referral of a neighbor. We were interviewing salespeople and literally as soon as we met Paul, we canceled our other appointments. He was prompt, professional and helped us understand the market quickly. We listed our home with him and his team and it sold at our price in 3 weeks. Great service and great team.

We started our search on the internet for a summer home. It quickly became apparent that Paul and his team Oceanide were the logical choice to call. We called and were first introduced to Kim Bailey who immediately set us up an appointment with Paul. After our initial meeting we were very comfortable and after 2 days of home searching, we purchased our beach house. Thank you so much.

I had a large parcel on the beachfront in Wildwood Crest that my family had decided to sell. It was a significant piece of property and we were careful who we selected to list the property. We met with four different agency's and we chose to work with Paul. It was obvious that he was suited for this property and he indeed sold it at a price higher than others even recommended. I would highly recommend using him for any transaction.

Nancy Tedesco
Wildwood Crest, NJ

My husband and I were out to dinner in North Wildwood. We had been talking about buying a condo at the shore and our waitress overheard us. She gave us Paul's name and said "this is the guy" We called him the next morning and met with him the same day. We also found the cutest place that day and bought it. He made it very simple for us.
