5 Tips For WINTER Cleaning Your Home

Many of us start feeling that urge to deep clean our homes once spring rolls around. In fact, the "Spring Cleaning" ritual is practically hard-wired into most homeowners' minds. But think about this...why spend so much time cleaning right when the weather turns nice? Why not do it now, when we're stuck indoors anyway?

Snow and rock salt is tracked inside every day from your kids and family, the fireplace is circulating ashes, the heat's running constantly, and with no open windows, all that dust is just hovering around. Having a deeply cleaned home is great for your abode and your psyche, and doing your cleaning in the winter is a great change of pace for most people - especially if you follow some sort of weekly house cleaning schedule. There are plenty of ways to cheaply clean your home, so here are some ideas to help get you started.

1. **Clean Your Furnace:** Change your furnace filter once a month. This helps in making your home more energy efficient, and keeps your air cleaner. And don't forget to look at the furnace itself. If it's coated in dust and grime, or if there are dust bunnies circulating around underneath, make sure to vacuum them up.
2. **Deep Clean Your Carpet and Floors:** Salt collects in between every carpet fiber, and the hardwood floors take on an unpleasant whitish sheen from melting salt water. To combat this, take the time to steam clean your carpet and scrub the floors. If you don't have a place for snowy boots and shoes, put out a couple of cookie sheets (the kind with the raised edge) for them to drain by the door. This will help keep that mess off the floors.
3. **Dust:** Homes get very dusty in the winter because the air is so warm and dry. Dust your home's surfaces from top to bottom to help keep the dust to a manageable level. Don't forget ceiling fan blades, the tops of window moldings, and the tops of books - all of which are often overlooked and can collect dust easily. Also, give your lighting fixtures a good dusting. Dust easily collects on them during the winter too, and can make your indoor light look dingy. This will make a big difference in brightening things up. Many people also opt to get their home's air ducts professionally cleaned. This will not only drastically reduce the amount of dust, germs and allergens floating around, but it can also help your furnace run more efficiently.
4. **Clean the Windows:** If you have a fireplace or burn candles, your windows likely sport a thin film of soot on the inside, which can block precious sun. Give all your windows a good wipe down. Use vinegar mixed with water, and it works great.
5. **Clean the Kitchen Ceiling:** Not Kidding!! Your kitchen ceiling likely has a film of funk on it without you realizing it, mainly from all the moisture, fumes and smoke resulting from cooking. The same goes for the walls, especially those around the stove. Mix a small amount of mild dish soap in a bucket of warm water and gently scrub with a sponge, using only a minimum amount of water (not enough to drip). Of course, if you notice any discoloration or streaking, stop immediately.

Final Thoughts: Deep cleaning your home is great for you both mentally and physically. You get great exercise, and it feels wonderful to be in a clean and bright house.

Market Stats - Strong Start to 2015

- "The January results represented good news on multiple fronts. First, strong sales growth suggests home buyers continue to see housing as a quality long-term investment, despite the recent period of economic uncertainty. Second, the fact that new listings grew at a faster pace than sales suggests that it has become easier for some people to find a home that meets their needs," said Mr. Etherington.
- The average selling price for January 2015 home sales was up by 4.9% year-over-year to \$552,575. The MLS® Home Price Index (HPI) Composite benchmark was up by 7.5% compared to January 2014.

Summary of Existing Home Transactions in Durham Region

	New Listings	Active Listings	Avg. Sold Price	Avg. Days on Market
Durham Region	884	857	99%	26
Ajax	138	104	99%	20

This Month's Recipe

Apple-Cinnamon Breakfast Quinoa

It's time to think outside the cereal box when it comes to breakfast! With cold weather upon us, quinoa fans will love this warm, creamy, hearty breakfast that's sweet, savory and totally satisfying!

Ingredients

- 2 tsp butter
- 1 cup diced unpeeled apples (red-skinned apples look nice in this recipe)
- 3/4 cup unsweetened almond milk or regular milk
- 2 tbsp currants or raisins
- 2 tbspsliced almonds
- 2 tsp coconut sugar, maple syrup or honey
- 1/2 tsp each ground cinnamon and vanilla
- 1-1/2 cups cooked quinoa

Directions

Melt butter in a small (7-inch) non-stick skillet over medium heat. Add apples. Cook and stir for about 1 minute, until apples just begin to soften.

Add milk, currants, almonds, coconut sugar, cinnamon and vanilla. Mix well and cook until bubbly around edges but not boiling. Add cooked quinoa. Continue to cook, stirring often, until some of the milk has been absorbed and mixture thickens, about 2 minutes. Serve hot. Sprinkle with more cinnamon, if desired. Enjoy!

Makes 2 servings

Terminology Tips

AGENT

A person or entity that is licensed under the applicable real estate board(s) to represent a party in a real estate transaction.

AGENCY

A relationship in which one party (agent) acts for or represents another (principal) under the authority of the latter. Agency involving commercial property should be in writing, such as listings, trusts, etc.

Not intended to solicit those already under contract
