# Boating Regulations

The following are the regulations of the Texas Water Safety Act as listed on the Texas Parks and Wildlife website, [www.tpwd.state.tx.us](http://www.tpwd.state.tx.us)

## TEXAS REGISTRATION AND TITLE

All motorboats and all sailboats 14 feet in length or longer operated on public waters or docked, moored, or stored on public water must be currently registered, properly displaying authorized numbers and validation decal, and titled. All outboard motors must be titled. Title applications and manufacturers statement of origin must accompany a request for boat registration for new boats and outboard motors.

**Exemptions** – All canoes, kayaks, punts, rowboats or rubber rafts (regardless of length) when paddled, poled, or oared and sailboats under 14 feet in length when windblown.

## TEXAS CERTIFICATE OF NUMBER

When a vessel which is required to be registered is in operation, the certificate of number (registration) or facsimile thereof must always be aboard and available for inspection by an enforcement officer. The certificate is valid until the expiration date shown thereon. When a certificate is renewed the same number shall be reissued, if application to the Department is made within the 90 day period preceding the expiration date.

## DISPLAY OF YOUR NUMBER

The number awarded a vessel must be painted on, or otherwise attached to each side of the vessel, near the bow, in such position as to provide easy identification. The number shall read from left to right, be in block characters of good proportion not less than three inches in height and be of a color that contrasts with the background. The numerals must be separated from the prefix and the suffix by hyphens or equivalent spaces such as the following example: TX 0123 AB and TX-0123-AB. Federal and state law prohibits any other number from being displayed on either side of the bow of your boat. The validation decal must be affixed in a line with and three (3) inches towards the rear of the boat from the registration number.

## LIFESAVING DEVICES

All Personal Flotation Devices (PFD's) must be U.S. Coast Guard approved, in serviceable condition, readily accessible, and of the appropriate size for intended user. All children under 13 years of age in motorboats under 26 feet in length must wear a U.S. Coast Guard approved personal flotation device while underway. Underway means not at anchor, made fast to the shore, or aground.

All vessels, including canoes and kayaks, must be equipped with one Type I, II, III or V wearable PFD for each person on board. A Type V PFD is acceptable only if used in accordance with the specific instructions on the label of the device. Vessels 16 feet and longer, excluding canoes and kayaks, are required to be equipped with one Type IV throwable Personal Flotation Device in addition to the Type I, II, III, or V PFD required for each person on board.

Inflatable PFDs are authorized only when used in accordance with requirements as presented on U.S. Coast Guard approval labels. Inflatable PFDs are not approved for use on personal watercraft, waterskiing, or other high speed activity.

## PERSONAL WATERCRAFT

Personal watercraft is defined as a type of motorboat which is specifically designed to be operated by a person or persons sitting, standing, or kneeling ON the vessel rather than INSIDE the vessel. Includes jet skis, wet bikes, etc.

## REQUIRED SAFETY EQUIPMENT FOR PERSONAL WATERCRAFT

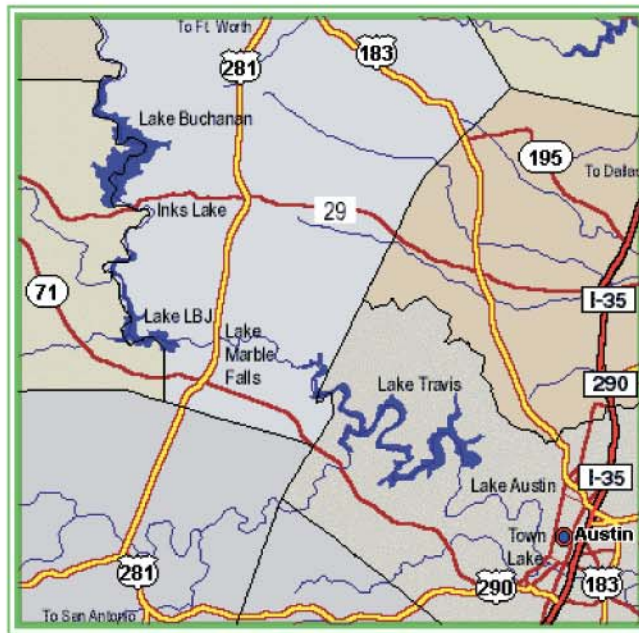

All equipment requirements for regular motorboats also apply to personal watercraft. In addition to those requirements, if the personal watercraft is equipped with a cut-off or kill switch, it must be attached to operator or operator's clothing. Inflatable personal flotation devices are not approved for use on personal watercraft.

## OPERATION OF YOUR PERSONAL WATERCRAFT

**NOTE: Children under 13 are specifically prohibited from operating a personal watercraft unless accompanied on board by a person at least 18 years of age.**

All operational rules for regular motorboats also apply to personal watercraft. In addition those requirements, it is unlawful for any person to (1) operate a personal watercraft if the operator is under 16 years of age, unless the operator is accompanied by a person at least 18 years of age or is at least 13 years of age and has successfully completed a boating safety course prescribed and approved by the Department; (2) operate personal watercraft at night (sunset until sunrise); (3) operate personal watercraft within 50 feet of another personal watercraft, motorboat, vessel, platform, person, object, or shore except at headway speed without creating a swell or wake; (4) operate a personal watercraft and jump the wake of another vessel recklessly or unnecessarily close.

These lakes are very popular with boaters and fishermen as well as campers and tourists. This is also a very popular retirement area. ### Lake Buchanan

When it was built, Buchanan Dam was considered to be the longest multiple-arch dam in the U.S. with a length of just over two miles. There are three towns close to Lake Buchanan. Burnet is 15 miles to the east of Inks Lake. Kingsland is 6 miles south and Llano is 15 miles to the west. Lake Buchanan is located 60 miles northwest of Austin and 95 miles north of San Antonio. The shores of the lake are dotted with nice homes with boat houses and automatic boat lifts. There are several communities along the lake: Kingsland, Highland Haven, Granite Shoals, Sunrise Beach, Deer Haven, Blue Lake and Horseshoe Bay. Until recently the Joseph James Mansfield dam was part of Hwy 620 and traffic drove over the top of the dam. A large bridge has now been built to route the traffic on Hwy 620 down below the dam. There are four communities located around the shores of Lake Travis. On the south side of Lake Travis, closer to Austin, on Hwy 620 is the Golfing community of Lakeway. On the north side of the lake are two communities; Lago Vista, another Golfing community, and Jonestown. Both of these communities are on Hwy. 1431.
