

[www.listingbook.com](http://www.listingbook.com)

Hi there, welcome to Listingbook!

I have set up a special Listingbook account for you that I provide as a service to my clients. This will give you access to the same database that we use in the real estate business and you can access it 24/7 from any computer. It will provide you with up-to-the-minute data on all the properties that are on the market that matter to you.

You will get an email from Listingbook Messenger to activate your user code and password. Please make sure to WRITE THEM DOWN! To make sure the Listingbook email isn't sent to a SPAM folder by mistake, please add [mailservice@listingbook.com](mailto:mailservice@listingbook.com) to your address book or contacts.

Your account is free and loaded with powerful and helpful tools you will not find in any other service. It is extremely easy to use.

With Listingbook you can easily:

- Find any home in the Multiple Listing Service!
- Make an informed decision and find your dream home quickly.
- Receive automatic notification of price reductions and new listings.

Call me if you have any problems. Otherwise, log in and play with it for awhile. My clients have raved about its power and I am very happy to be able to offer it to you.

I look forward to hearing from you soon!

*Kris*
