Keller Williams Address:
100 Campbell Blvd., Suite 106, Exton, PA 19341

*Each Keller Williams office is
independently owned and operated.*

Happy Spring,

Tired of being inside? It's time to come outside and smell that fresh air. If you treat your lawns, right now is the time to put down Scotts Step 1 Turf Builder (Halts Crabgrass). This treatment will strengthen your lawns root system for a greener lawn and also prevent unsightly crabgrass that overtakes lawns during the Summer months.

March-April is the best time to put Scotts Step 1 on your lawns. Apply Step 1 on a day of calm winds and to dry foliage. Make sure it has not rained for at least 24 hours. Rain can be in the forecast for 24 hours or more after the application.

The weather is changing and with that change brings Spring clean up inside and outside of our properties. If you are thinking of selling in the future, take advantage of the season to clean out gardens, mulch flower beds, add some seasonal flowers for curb appeal and prune trees. A groomed property shows much better than a property that has been neglected.

If inside is your challenge, focus on clutter. Think of yourself as a buyer when looking around your home. Clutter is a deterrent for buyers. If they can't see past the clutter, then they can't see your house and it's potential to suit their needs. Spring is for cleaning, so scrub those floors, touch up those walls with paint and make space in the home. This will make your buyers more interested and you feel better about your home.
