Introduction

- After Hurricane Katrina destroyed their beloved New Orleans, many former residents were asked the following question:
 - Besides “**L-O-V-E**” what do you identify as the most important four-letter word?
 - The unanimous answer was simply...

“H-O-M-E”

Your First Home: Home Buying by the Book

Decide to Buy

- Financial net worth comparison, according to the U.S. Federal Reserve Board of Consumer Finance:
 - Average net worth of renters = **\$4,000**
 - Average net worth of home owners = **\$184,400**

Decide to Buy

- A home is the largest financial asset most people have due to equity and appreciation over time.
 - Historical appreciation rate is **5 to 6 percent**.
 - This means that a home purchased for \$150,000 would grow to a potential value of **\$861,000** in 30 years!
 - Even at 3% annual appreciation, a home purchased for \$150,000 would grow to **\$364,000** in 30 years.

Your First Home: Home Buying by the Book

Decide to Buy

- Buying your first home is an emotional decision—“Home is where the heart is.”
 - A home represents your personal tastes and provides a haven of stability and security for both you and your loved ones.
 - Provides a pride of home ownership, because it's *yours*.

Your First Home: Home Buying by the Book

Decide to Buy

- It's also a rational decision—"Home is where your wealth is."
 - Grow wealth via equity buildup, debt pay down, and value appreciation.
 - In the United States, you can take advantage of tax-deductible benefits such as property and mortgage interest write-offs.

Your First Home: Home Buying by the Book

Decide to Buy

- “Home is where your wealth is.” (continued)
 - A home is an “accidental” investment that creates leverage opportunities.
 - Examples:
 - In a few years, you can use your equity to trade up to a better home.
 - Or, you might consider using some of your home equity to invest in a rental property or a second home.

Your First Home: Home Buying by the Book

Decide to Buy

- Why pay rent when you can own?
 - If you took out a 30-year fixed-rate mortgage for \$150,000 and made monthly mortgage payments of \$900...
 - You'd pay \$324,000 in mortgage and interest payments over the life of the loan.
 - And after 30 years you'd own a home with an appreciated value potential of **\$364,000** (on the low end at 3% annual appreciation) or **\$861,000** (on the historical norm of 6% annual appreciation).

Your First Home: Home Buying by the Book

Decide to Buy

- Compare that to paying \$800 per month in rent over 30 years...
 - Even if your landlord improbably *never* raised rent, you would still spend **\$288,000 and own nothing!**

Hire Your Agent

- Real estate agents perform 7 main roles:
 1. Educate you about the market
 2. Analyze your wants and needs
 3. Steer you to homes that fit your criteria
 4. Coordinate the work of other needed professionals
 5. Negotiate on your behalf
 6. Review paperwork and deadlines
 7. Solve any problems that may arise

Hire Your Agent

- Advantages of a buyer's representation agreement:
 - Sets mutual expectations in writing between you and your agent.
 - Commits your agent to getting you into the home you want, while you commit to working exclusively with your agent.

Secure Financing

- Six steps to financing a home:
 1. Choose a loan officer (or mortgage specialist).
 2. Make a loan application and get preapproved.
 3. Determine what you want to pay and select a loan option.
 4. Submit to the lender an accepted purchase offer contract.
 5. Get an appraisal and title commitment.
 6. Obtain funding at closing.

Secure Financing

- Know your mortgage options.
 - Three basic factors:
 1. Down payment
 2. Interest rate
 3. Term

Appears on Page 48

Your First Home: Home Buying by the Book

Secure Financing

- Understanding your monthly payment:
 - Principal
 - Interest
 - Taxes
 - Insurance
- Together, these four elements are commonly referred to as **PITI**.

Your First Home: Home Buying by the Book

Secure Financing

- Prequalification vs. preapproval
 - Prequalification is simply a *rough estimate* of how much you can borrow.
 - Preapproval involves a formal application process and provides you with a *formal commitment* from a lender stating how much you can borrow and at what rate.

Your First Home: Home Buying by the Book

Secure Financing

- Deciding among your mortgage options:
- If you want...
 - A low monthly payment – put more money down or purchase a more affordable home.
 - A low down payment – secure a second mortgage or an “80-15-5” piggyback.
 - To build equity quickly – make voluntary prepayments.
 - To minimize risk – take a 30-year fixed-rate program with 20 percent down.

Secure Financing

- The suitcase principle
 - Your lender decides what you can borrow, but you decide what you can afford.
 - In your preapproval letter, make sure the monthly payment is an amount you're comfortable paying each month.
 - It's best to spend no more than a third of your gross monthly income on your home payment.

Find Your Home

- Define your home criteria—analyze your values, needs, and wants.
- Consult with your agent to understand the rules of your market.

Appears in Chapter 4

Your First Home: Home Buying by the Book

Find Your Home

- When viewing a home, what you consider and what your agent considers are different.
- You'll want to look for...
 - Layout, space, a sense of value, convenience of location to work and schools, and features and amenities.
- Your agent will look for...
 - How the home compares in terms of size, layout, and value to other homes in the area, as well as maintenance and structural concerns.

Make an Offer

- Three components of an offer
 - Price—offer must reflect true market value of the home.
 - Terms—six basic categories address timing and financial considerations.
 - Contingencies—often referred to as “conditions” that allow you to opt out of a deal if the home has a problem.
