

Meet Our Team

DARIK STEINBACH – *Lead Agent*

I have been selling residential real estate in Minneapolis full time for 13+ years. I constantly seek out the best new ways to use technology to sell my listings. I specialize in selling single family residential dwellings, including single family homes, townhomes, and condos. I have past experience in short sales, foreclosure and contract for deed transactions.

My phone is always on. I take calls from 8am to 10pm. I won't answer calls in front of other clients, however I will make my best effort to return any messages expeditiously. I am committed to building relationships for life. It's my goal that my past clients will not only buy or sell with me again, but will tell all their friends and family about how I work and present me with an opportunity to earn their business as well.

I thoroughly enjoy the outdoors, boating, running, and traveling. I am always excited to meet new people and I am here to make your real estate experience an outstanding one!

AMY SCHLUETER – *Director of Operations*

I have worked with the team for 5+ years.

I implement the latest techniques in management, marketing, social media and internet presence for the team; as well as overseeing all office operations. I am committed to supporting the team, helping the team grow, and making sure the office is running in the most efficient way possible.

I enjoy spending time with my family, yoga, baseball, traveling and the sunshine!

Meet Our Team

DAVID LEE – Buyer Specialist

David began his career in property management and investment real estate, managing activities like leasing out properties and analyzing investment income potential. He took this experience into the residential sales world to aid his investor clients, and to add a well rounded knowledge base for his residence buyers. He has been in the industry going on 5 years, and though only 25, has a passion and dedication to his field like no other.

I thoroughly enjoy music, playing games and meeting new people.

LEAH DISTEL – Buyer Specialist

I work exclusively with buyers as they search for the home that will fit their needs. A great transaction is not just showing you homes and finding you the best fit, but includes negotiating the best terms, getting through the inspection, guiding you through the financing process, getting you through the closing process and helping you get settled in your new home. My client's are my top priority!

I enjoy spending time with my family, traveling, being outdoors, and a great book.
