

No one offers more technology to real estate agents than First American Title. From taking and uploading digital photos to our Transaction Manager to communicating with us with Outlook, we offer the tools and courses to allow you to conduct business in this high technology market. You can also enhance your own business by attending these courses.

Seminar will be held at the Prudential Gary Greene office on Louetta.

All agents encouraged to attend!

Lifting the Fog of Technology Seminar – Thursday, April 5, 2007 Office Meeting

What is *Lifting the Fog of Technology*?

A seminar that provides an overview of the important technologies available to REALTORS® in today's market. During this seminar agents will get an insight into the numerous courses offered in the FirstTeach program as well as tips, techniques and tricks. Agents will learn to prioritize their time and their investment in technology. Further, they will be shown useful programs that they can download at no charge, and will leave with a more thorough understanding of how technology can be applied to their business

We Offer a Full Range of Classes

Some of the courses in the FirstTeach program that we offer include:

Basic Tempo	Top Producer 7i	Word Flyers
Advanced Tempo	Publisher Flyers & Newsletters	Palm Handheld
The Fog of Technology	PowerPoint Presentations	Contact Management with ACT
Windows Power Tips	Digital Photography	Contact Management with Outlook
High Impact eMail - New!		Excel for Real Estate

And more classes on the way!

Learn from the Expert

Our Director of Applied Technology, Steve Nachlas, conducts our technology classes. Steve has been conducting training classes for 19 years, and has provided training to the real estate community since 1998. He has worked with literally thousands of REALTORS during that time, and has helped them grow their business through technology. Steve's classes are fun, fast-paced and informative.

Steve H. Nachlas
